In the AutoPlay tab, there will be several options in the drop-down.

- o Music files
- o Pictures
- o Video files
- o Mixed content
- o Music CD
- o Blank CD

Exactly in which section is the <need provider> entry appearing?

i don't think so. I think they are visible only in the box that comes up
when I insert a disc, or when viewing Autoplay for the device in My
Computer.

However, I would have to check when I get home to be sure.
