Thanks Anando, but the software/drivers are compatible with SP2, I think something is wrong with Windows XP and USB connection

Sony Ericsson File Manager 2.6.6.0

File Manager allows you to browse the contents of the mobile device file system and exchange multimedia files between the mobile device and the PC.

Requirements

Choose any of the following connections that are applicable for your phone: Cable, Infrared or Bluetooth.

Windows ME, 2000 SP4, XP SP2 (Professional and Home)
System requirements:

At least 120 MB free hard disk space

Windows ME: 64 MB RAM, 200 MHz

Windows 2000 with Service Pack 4: 64 MB RAM, 266 MHz

Windows XP SP2 (Professional and Home): 128 MB RAM, 300 MHz
