Using the following:

How To Register .dlls In XP and un-register DLLs in Windows XP Pro
Only com/ole/activeX dlls can be registered.

regsvr32 filename

regsvr32 /u filename

regsvr32 /i filename (for self installing dlls – this includes a register)

regsvr32 /i /u filename (Uninstall)

regsvr32 /? for help

Question is this:

Is there a list of ALL the dll's ,etc that I can use these coamnds with?

thanks

.
