If you will go to the Import/Export function in Outlook, you will see that you have a choice about what you are exporting. Your address book is "Contacts".

Here is a good website for Outlook questions:  
[www.slipstick.com](http://www.slipstick.com)

Another great place to get information about this program is the Outlook website from Microsoft:

And there are newsgroups just for Outlook. You might want to start here:  
microsoft.public.outlook.general

And here is a list of all the Microsoft newsgroups; there might be other Outlook newsgroups that would interest you also:
