On Sun, 04 Sep 2005 08:49:09 -0700 in microsoft.public.windowsxp.general, Donald L McDaniel favored us with...

> You know, Carey, the US Constitution has a clause which DENIES  
> Congress the right to make laws which "grandfather" things

Which clause would that be, please? If you're thinking of "ex post facto law", then it doesn't mean what you think. I almost said it means the opposite of what you think, but that's not quite true; however, it's much closer to the opposite than to what you said.

I know the Constitution fairly well, and I don't know of any clause that could have the interpretation you gave. Which clause are you thinking of?
