| Hello John E

| Your comments are noted and the 'comp-speak' – of the former, I am afraid  
| you have a far better knowledge than me.

| I am completely new at this game. I made this very obvious at the start,  
| and my P.S to postings also makes this obvious. I am however saddened that  
| those with far more knowledge than myself have let this pass, or it would  
| appear so. It has been mentioned, that as far back as May, these racists  
| remarks were being made.

| I have noticed that there is some form of censorship in the group. How such  
| messages are noticed I have no idea, but they get blanked. How does this  
| sort of filth get through. Perhaps as an Administrator you could kindly  
| explain.

| A warning re these postings might have helped. I would rather see what  
| pcutts et al were saying to each other than this 'Kev'.

| I WOULD LIKE TO THANK DAVID FOR HIS SUPPORT AND SPUR(KICK UP THE A???) to do  
| the technical bit(not bad for a first go I thought)

| Thank you David.

| I leave this in the hands of the 'powers to be' and would hope this is  
| resolved. And of course, a post would help so that we ALL know what is  
| being done.

| A Big Public Apology to KEN BROWN for aligning him with the suspect.  
| And to Doctor GILL for calling him a moron. Woops – that pork has taken a few  
| steps back I fear.

| Rgds to 'rwx...' Nightowl and all the others for your comments and support.  
| Despite the obvious co..-up I felt I was doing the right thing. Now I know  
| it was right.

| Antioc

| 'You can't educate pork' Trying too hard!

You're Welcome Antioch ;-)
