Hi Alan,

How did yall fare in Texas for Rita? Am here near New Orleans.

As per your issue and to add a bit to Peter's great advice, search for the dll and place it with the rest of them and/or register it: Example being.....

Start/Run/CMD: c:\regsvr32.exe agtttip.dll

or:

Start/Run: regsvr32 agtttip.dll

If you receive an error message: <http://support.microsoft.com/?kbid=249873>

Did you remove Atomica or see if you can find it with your search engine if the Atomica is still on your comouter. If you have the software then re-install it and then use the uninstall or Add\Remove to remove it properly
