Grossly incorrect. Windows XP Media Center Edition is built upon Windows XP Professional. It includes additional media capabilities and has a very nice consumer product-like user experience.

Media Center is a completely different product which cannot be directly compared with XP products.

Try this:

with
Media Center included...

Thanks.

Hello,

I am looking for a link/table comparing
WinXP Pro, Home and Media Center.
I am pretty sure I had found one a while ago
on the MS site but I can't
find it again...

Thank you.

Eric.
