Hash wrote:

Please forgive me for sending "test" post. i've posted few threads in this newsgroup today 12 march 2006. none have appeared so far apart from this test. Any reasons?

Please see my answer to you (and Shenan's answer to you) in the other thread to which you posted. *All* your numerous posts have shown up for both Shenan and me, so there must be something odd on your end.

Continue any discussion about this in that other thread.

Malke
