I created a backup of my system and it stored it in a folder called 'My Backup -- 05-12-24 0141PM'. I can't delete this folder. The 'Owner' folder under C:\My Backup -- 05-12-24 0141PM\Documents and Settings says 'Access Denied'

Any ideas on what I need to do to delete this... I log in using the same account. Owner with admin.

How to take ownership of files and folders
