Vulnerability???? Show me one Linux box that has suffered in anyway from this "vulnerability". Windoze boxes are crashing constantly due to vulnerabilities. Linux boxes ... haven't heard of one yet. So, cut the crap. Trying to makeup things doesn't make it in the real world.

Thought so. You didn't understand the link.

The idea that Ken Thompson would make up things or "talk crap" just shows you up as the clueless trolling idiot that you are.

I'll give you a free clue shall I? http://en.wikipedia.org/wiki/Ken_Thompson

That funny feeling you have right now is egg all over your face. Cya!

.
