Hi Steve,

Well, according to this response, it's not adware:

"umm figured it out..

File is created when I run (ohhh how I hate to admit this)

Hallmark Card Studio

The fonts list in it made me try opening all applications that use fonts and might induce it's creation and low and behold after a process of trial and error mystery solved!"

Does anyone know what GDIPFONTCACHEV1 is? I tried to delete it once, but soon it came back... I don't have any malware on my pc. thx

You do in fact have malware on your computer, sorry. Learn how to clean it up:

Bakersfield. Right outa the eighth-grade mah bruther run over me with a backhoe. Sparks commenced and mah face caught on fire. Daddy run off the porch and put it out with a rake. Then I growed up."

~Tim Tomerson

Although I saw the best Loggins & Messina concert ever at the colledge there... Pablo Cruise opened. Frikkin rocked!

Steve N.

Ok. I stand corrected. When I did a search I got a whole slew of adware hits on it. Glad you got it figured out and you're safe after all.

There's nothing to be ashamed of for using Hallmark, Alan.
