Switchhead, complete reload? Not to sure what that means.

"switchhead" <[switchhead@xxxxxxxxxxxxxxxxxxxxxxxxxxxxx](mailto:switchhead@xxxxxxxxxxxxxxxxxxxxxxxxxxxxx)> wrote in message  
<news:DB4A8D6C-AA21-4FE7-AFD5-94692E3E0DD4@xxxxxxxxxxxxxxxxxxxxx>

I am doing a complete reload. The problem I am having is that a lot of the net\*\*\* files fail to load. If I select to skip these files, I invariably receive a fatal error and looking at the log I am unable to decipher them.

Errors received:

netcfgx.dll, netman.dll, netshell.dll, Load Library, error 126  
netoc.dll could not be found or netocsetupproc could not be found, error 0x7e  
Fatal Error; Setup was unable to initialize Network installation components.  
The specific error code is 2.

Any suggestions?
