try to validate your copy of windows.
this should help:

<http://www.microsoft.com/genuine/downloads/RunHTA.aspx?displaylang=en&sGuid=60af4c04-655f-4f64-80c0-ab>

hello

i keep getting popups saying my windows xp is not genuine. i have had it checked through microsoft and its says its genuine , would you tell me

how

to get to the product key number so i can check it with my my number on my box?

larry
