hi,

i changed from wanadoo to NTL. i take it i cant remove this then?

"Will Denny" wrote:

Hi

NTL doesn't put anything at the top of an IE page, so have you changed
from
Wanadoo?

when i view any page on the internet at the top of my page it
states
what
page i am viewing but the browser also says Microsoft
internet explorer
provided by wanadoo. My ISP is NTL not wanadoo. for
example when i view
the
newsgroups page my browser at the top reads - Windows

Re: internet browser message

XP Newsgroups –
Microsoft Internet Explorer provided by Wanadoo. Can you
tell me how i
can
get rid of this. Sorry if i have posted on the wrong page.x
