When searching for available updates on the Update site, you see the 0x80248013 error
<http://update.microsoft.com/windowsupdate/v6/showarticle.aspx?articleid=11&ln=en&IsMu=False>

There is a problem with the WU servers at the moment so you may need to wait awhile before trying WU again.

| hi all

| when i try to use windows update, after it checks to see if i have the
| latest update software. it then goes away to check for updates for my pc.
| i then get the message unable to display page, error 0*80248013.

| just lately i have also had some third party software fail to install, ie bt
| hub software and sony ericsson k800 mobile phone suite.

| any advice would be gratefully recieved

| mike
