Replied to [zulu]s message :

Sorry, but I get no results
when I run regedit and
search for those
terms

I may be doing it
incorrectly, as I would not
normally venture there
as I am almost blind.
I only dare push my luck
so far <g>

Click Start > Run > Copy/Paste this [THIS
IS ONE LINE, turn off
wordwrap]:
cmd /c (reg query "HKCR\.url" /s & reg
query
"HKCR\InternetShortcut\DefaultIcon" /s) >
C:\PostThis.txt

then post the contents of "C:\PostThis.txt"

Re: Can't change shortcut icon

Click Start > Run > CMd > Click OK

Type these commands one/by/one then Enter after each :

```
reg query "HKCR\.url" /s > "%tmp%\PostThiss.txt"
reg query "HKCR\InternetShortcut\DefaultIcon" /s >>
"%tmp%\PostThiss.txt"
notepad "C:\PostThiss.txt"
```

Then post the contents of notepad window...

- 1)
reg is not recognised as an internal or external command, operable program or batch file
- 2)
reg query "HKCR[backslash] Internet Shortcut [bavkslash] DefaultIcon" /s.txt
- 3)
Cannot find this file

Click Start > Run > CMd > Click OK

Type these commands one/by/one then Enter after each :

```
% windir%\system32\reg.exe query "HKCR\.url" /s > "%tmp%\PostThiss.txt"
% windir%\system32\reg.exe query "HKCR\InternetShortcut\DefaultIcon" /s >>
"%tmp%\PostThiss.txt"
notepad "C:\PostThiss.txt"
```

=====
Click Start > Run > CMd > Click OK

Type these commands one/by/one then Enter after each :

The filename, directory name or volume label syntax is incorrect

```
% windir%\system32\reg.exe query "HKCR\.url" /s > "%tmp%\PostThiss.txt"
```

C: [backslash] Docoments and settins [backslash] [myname]

Re: Can't change shortcut icon

```
%windir%\system32\reg.exe query "HKCR\InternetShortcut\DefaultIcon" /s >>
```

```
"%tmp%\PostThiss.txt"
```

```
notepad "C:\PostThiss.txt"
```

Cannot find the C: [backslash] PostTthis.txt file

=====

Sorry for the delay, real life intervened...<g>
