Dear Rock:

Thank you for your advice!. This site was to provide a email for me for replies, but I guess it did not.

How did I end up where I am today? Long story. My computer is in the advance screen will not let me do anything and the recovery of the CD just asks me for Admin Password.

So I guess I will have to have a pro fix it for me, as I cannot do anything you suggested as the laptop won't let me do ANYTHING!

I am so frustrated. I have fixed the computer before many times and thought I could do it again this time.

Again, thank you!.

Ok, Hannah, sorry you're having such difficulties. Good luck.
