In news:5CC4926F-68F3-4FCC-9634-39FB9D08F853@xxxxxxxxxxxxxx,
leonperrins <leonperrins@xxxxxxxxxxxxxxxxxxxxxxxxxxxxxx> hunted and pecked:

My error seems somewhat different to others I have seen.
"The path volume(G) from Perrins1 contains an invalid character"
I believe this arose when I copied a complete drive onto a new hard drive.
This error stops me installing some programmes from my hard drive.

I am running XP Pro +SP2.
