Yes I have .When I use download direct I receive a window "You are using the wrong Flash Player for this update.I went to Adobe and downloaded Flashplayer 9.0 but still get the install update window.
The only way I could stop the update window from appearing is to stop The Automatic Updates.
Thanks for your reply Napatsfan.

Robert

Hi,
Windows is attempting to download and install a security Update for Flash Player.This has been going on for the past 4 days.
I receive the message "Updates were unable to be successfully installed" (KB 923789)

Win XP HomeSE
IE 7
1Gig mem
200 Gig HD
tyia for any help

Robert Craig

Have you tried downloading the update directly?

Security Update for Flash Player (KB923789)
