On 5/12/2007 4:26 PM On a whim, SANTANDER pounded out on the keyboard

My windows is genuine, but I've not installed WGA update (just dont  
want –  
its my choice). Can I still getting updates selectively – select what  
update  
or fix to install and what – not? Or I can use only "express" install –  
without possibility to select from them?

Regards

-----  
Hi,

You don't have to have WGA installed (at least yet). If you uncheck it,  
it will ask you NOT to ask again, so reply to it appropriately. All  
other updates will come through normally. Just don't have AU download  
and install the updates automatically for you if you want the option to  
select.

Just to clarify: to uncheck box on this update message?(yellow icon in the status bar) Also, where to select manual update mode?

B.Regards,

Santander
