Hi,

I have the same problem. Didi this owrk for you?

Thanks

Richard

Under My Computer -> Special Folders, you can redirect the folder to any location you want.

Re: Shared Documents on D: drive

Good Luck,

Keith

I've got all my OS and programmes on my C: drive and all my data on D:. I've worked out how to redirect the My Documents icon to point to my D: drive but can't find a way to redirect Shared Documents. Can it be done?
