This is supposed to print out left aligned and in columns. I tried the Wordwrap and doesn't help.

SUPPOSED TO LOOK LIKE:

Part Program: 410291–op\_080 Date/Time: 11/12/2007  
10:35:16

Inspector: Administrator CMM: CMM1

---

Initials =

Type of Inspection =

Job Number =

Cmm = 18089

---

Customer: Adkar Inc.

Part Number: 574789

Rev.: B

Part Description: End–top End 4 Inch .....etc etc etc

MAKE A CHANGE AND IT LOOKS LIKE THIS.....

---

Part Program: 410291–op040\_060 Date/Time: 11/13/2007 23:52:21

Re: Notepad–open a txt file/make change/save/reopen and file is ga

Re: Notepad–open a txt file/make change/save/reopen and file is ga

Inspector: Administrator CMM: CMM1

---

Initials = Type of Inspection = Job Number = Cmm =  
1808

When I open a txt file and make a change to it, save and then reopen it comes up garbage. The txt files are downloaded from a machine. We have two identical systems and the other one works fine. What is weird is it doesn't happen to every file.

Thanks for any help.
