Hello,

Simple question, I lost my local admin password for a XP box, and the machine is not in the domain...Could I run XP installation disk again and reset admin password from there? Thanks!

Sincerely,
Ben

Here's two things to try

How to Log On to Windows XP If You Forget Your Password or Your Password Expires

<http://support.microsoft.com/default.aspx?scid=kb:en-us:Q321305>

Go to <http://home.eunet.no/~pnordahl/ntpasswd/> . There you will find zip files that will let you create boot floppy disks or bootable CDs that will enable you to reset any system password on an NT class operating system.
