Windows XP Home SP2

Hi. does anyone know of a good 'free' newsreader.
Currently using Outlook Xpress 6 (used to use
Forte Free Agent (now no longer free)) but want to
use a separate reader.

Help appreciated

Tony

Just now I have come to know that FeedDemon which was ShareWare
earlier is now FREE. I have no experience with FeedDemon, but intend
to give it a try. The free version is available for downloaded at
<http://www.newsgator.com/download/FeedDemon/FeedDemonInstall.exe>

.
