I have these 2 files on my desktop that ive never been able to remove  
Ive tried norton and mcafee and they are virus free  
when I try and delete them I get the messege  
'CANNOT DELETE FILE; CANNOT READ FROM THE SOURCE FILE OR DISC'  
The file names are CAANW3HU and CACXEXD6  
there both 0 bytes in size and the type extension is just file  
ant suggestions

Try deleting them while in Safe Mode. Alternatively, try  
unlocker from <http://ccollomb.free.fr/unlocker/>.
