HI

I keep getting this error message every time i start my P C.

Error loading c:\progr~1\ my webs-\bar\2-bin\mwsbar dll

any help appreciated.

--

DEFENDER01-

So, what you expect from Malke, she was more serious and always she is

serious in Her Troubleshooting which we learn from and admire.

I cannot see anything wrong with what she said.

You need to go to the Add/Remove and uninstall this Program "My web search toolbar".

You will see it while disabling the add-ons on your browser by following the setps below!.

Unexplained computer behaviour may be caused by deceptive software

<http://support.microsoft.com/kb/827315>

Go through these Cleaning steps:

1... First, try to clean up your caches, Internet files and delete cookies

by doing this:

Re: Error message.

Re: Error message.

Click Start Control Panel Double click Network and Internet Connections Double click Internet Options.

On the IE properties windows you will see these Tabs:

General | Security | Privacy | Content | Connections | Programs | Advanced

Under General Tab clear your History, Internet Files and Cookies.

Then click on Advanced tab and scroll down to under the Browsing Option:

Browsing

Enable Third-Party browser extensions (Req Rest) uncheck this box.

Then click on Programs Tab and click Manage Add-Ons and Disable all non

Verified Add-Ons (You should Renable them later one-by-one and see the culprit and update it or remove it.

How to manage Add-Ons:

<http://support.microsoft.com/kb/883256>

Scan for malware from he

SuperAntispyware – Free

<http://tinyurl.com/kh7nm>

RootkitRevealer v1.71

By Bryce Cogswell and Mark Russinovich

<http://tinyurl.com/yb6d45>

Run a scan from here on-line:

<http://tinyurl.com/do09>

<http://www3.ca.com/securityadvisor/virusinfo/scan.aspx>

Download Avast Cleaner (offline scanner) from he

<http://www.avast.com/eng/avast-virus-cleaner.html>

You can download this tool "AutoRuns for Windows"

<http://tinyurl.com/39338j>

And remove the entries from he

c:\progr~1\ my webs-\bar\2-bin\mwsbar dll

And Locate this key:

HKEY_CURRENT_USER\Software\Microsoft\Windows\CurrentVersion\Run = look in

the right pane/window and remove the entry for it

"C:\progr~1\ my webs-\bar\2-bin\mwsbar dll".

Run disk cleanup and defrag in safe mode. Then run this command:

sfc /scannow

May your mind reset in peace and your heart be filled with Joy, smile

:)

O/K

i may have misunderstood the wording. many thanks to you all i have now

Re: Error message.

Re: Error message.

managed to sort thing out thanks to all your help
