Appear on the left side. above All program I have no option to Unpin from Start Menu, not even remove it. It is on top of the of accessories; it's like I have two start menus at once. It drives me nuts, because when a intend to remove it, access is denied because it is part if the Windows system.

thanks

Roque

Can anyone help me with this problem? Now in my Start Menu appear all the folders, like Start menu, ntuser, my documents, favorites, desktop, contacts and application data, and Windows won't let me delete. How can I fix this
????

thanks

Roque

Where do they appear, on the Start menu? [Left side, right side, All Programs?]
Can you right-click and choose "Unpin from Start Menu", or "Remove from This List"?
Does right-click show the name of the entry, or just "Open" and "Explore".
What options appear in the context (right-click) menu?

Re: Duplicate shortcuts or duplicate folder appear in the start menu

Line 117. Restore Taskbar and Start Menu

Line 164. Restore Taskbar and Desktop to Default Functionality

http://www.kellys-korner-xp.com/xp_tweaks.htm

Taskbar Repair Tool Plus!
