Hi everyone!!

I need help bad!!!! Instead of saving the websites to my Favorites (Plus I was in a rush), i just thought I'd pick them back up from my history. I could do that...but I deleted the wrong day in my history!!!!!!!!!!!! That's what I get for rushing!!! On my old computer, my husband suggested id_suite from SnapFiles. I ran that but it wouldn't work with Windows Vista...go figure!!!! I'm soooooooo racking my brains. If anyone could help, I would really appreciate it!!!!!!

.
