Can you open Task Manager via CTRL+ALT+DEL?

Can you open Regedit via Start | Run | (type) REGEDIT | OK ??

Aloha all. I recently went to look in my Temporary Internet Files folder, and an error saying "Your Current Security Settings Do Not Allow This Action." I've gone in to this folder many times before, although not recently. Obviously something changed on my system, but I do not know what. How can I fix these security settings so I can access all my files and folders? I am the administrator, and the only user of this computer. Many thanks!
