Sorry but i only know indows XP home and pro never heard of your gold thing.

SEcond according to this

http://wdc.custhelp.com/cgi-bin/wdc.cfg/php/enduser/std_adp.php?p_faqid=928&p_created=1049320914&p_sid=1ZS

windows XP does support HD larger then 128 Gb as long as they have SP1

Third if it didnt how come the files were perfectly fine and suddenly after a reboot they are all gone?
