Correction, This is occuring even to administrators

>-----Original Message-----

>I am trying to get remote assistance working, and when I

>try to send a request via email a window

>Titled "Microsoft Internet Explorer" opens with the

>error "A program could not start. Please try again."

>

>The occurs only with individuals that do not have

>administrative privledges.

>

>What program is it trying to start? How to I fix this?

>

>Thanks for the help
