Hi,

Cannot Log On to Recovery Console After Running Sysprep [Q308402]

<http://support.microsoft.com/?kbid=308402>

Sounds like you are a victim of this installation tool. You can get in by using the floppy disk set to start the Recovery Console.

Home edition:

<http://www.microsoft.com/downloads/release.asp?ReleaseID=33290>

Professional edition:

<http://www.microsoft.com/downloads/release.asp?ReleaseID=33291>

You will need 6 floppies and a machine to create them on. Then boot the affected system with them.
