Hi,

Click start/run, type regedit and click ok. Export a copy of the following keys:

```
HKEY_CURRENT_USER\Software\Microsoft\Windows\CurrentVersion\Run
HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\Run
HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Shared Tools\MSConfig\startupreg
```

Right click each of the keys in turn, choose edit. Then copy/paste the contents of each into a reply.
