See this article. It says OE5, but applies to OE6 too.

Outlook Express Stops Responding and Your Pointer Appears as an Hourglass:

<http://support.microsoft.com/?kbid=259927>

If still no joy:

Go to: Start>Run>Type in: regsvr32 inetcomm.dll – Press: Enter.
{Note the space after 32}.

If the problem reoccurs, download CWS shredder and run it after doing the fix again.

http://www.intermute.com/spysubtract/cwshredder_download.html
