This is what you need to do:

- 1) Create a "Quickbooks Users" group
- 2) Add your users to this group
- 3) Give the group Full Control to HKEY_LOCAL_MACHINE\Software\Intuit\QuickBooksRegistration (RegEdt32.exe)
- 4) Give the group Full Control to the .QPG key in HKEY_CLASSES_ROOT (RegEdt32.exe)
- 5) Give the QuickBooks Users group Modify rights to the "X:\Program Files\Intuit\Quickbooks..." folder
