Hi Grey,

Try adjusting the disk space used to store restore points. Only the oldest restore points will be removed as the size is decreased.

How to Adjust the amount of disk space System Restore uses

<http://bertk.mvps.org/html/diskspace.html>

If the system is running correctly at this time, you could use disk cleanup to remove all but the latest restore point. This may free up the disk space.

Using System Restore & Disk Cleanup

<http://bertk.mvps.org/html/diskclean.html>
