Do you mean Find Fast (findfast.exe)?

Some features do not appear in the Microsoft Office 2000: Selecting Features dialog box when you install Office 2000

See indexing service in Help and Support.

Indexing Service

You can use Indexing Service to index documents and document properties on your disks and store the information in a catalog. You can also use Indexing Service to search for documents, either through Search on the Start menu or through a Web browser.

HOW TO: Create and Configure a Catalog for Indexing
