[[This utility will allow you to disable Windows Messenger on per-user basis, or on a machine wide basis. Download the ZIP file and extract MessengerDisable.exe to your hard drive. You can either double click the EXE file, or create a shortcut to it, as you prefer. You can, optionally, use this utility to remove Windows Messenger from your machine. You may need Administrator level privileges to run this program.]]

Disable/Remove Windows Messenger

David Sherman <dshermin@xxxxxxxxxxxxxx> hunted and pecked:

A friend of mine gets a dialog box every time he opens "my documents".

The dialog box--

Sign In with Microsoft Passport Network.

Please sign in with your Microsoft Passport Account.

Etc,

I have tried TweakUI for Windows XP. He has Home version of XP.

No help.

Re: passport balloon

It works once but upon reboot, he gets the same dialog box.

We have edited the register below:

[Start] [Run] [Regedit]

Registry Key: HKEY_CURRENT_USER\Software\Microsoft\MessengerService
Modify/Create the Value Data Type(s) and Value Name(s) as detailed
below.

Data Type: REG_BINARY [Binary Value] // Value Name: PassportBalloon

Modify the Value Name [PassportBalloon] according to the Value Data
listed below.

Value Data: [Change Value to 0A 00 00 00]

Exit Registry and Reboot

NO Help

Tried to disable:
