Administrative Tools folder is empty?

<http://windowsxp.mvps.org/admintools.htm>

or

Visit http://www.kellys-korner-xp.com/xp_a.htm and scroll down to "Administrative Tools - Restore" and click on the link.

| Hello,

|

| I restored an Windows XP SP2 installation from a Backup, but my
| "Administrative Tools" Folder is empty, the links are lost. In Control Panel
| as well as in start menu. Control Panel directory is empty, Start menu entry
| shows only an "desktop.ini".

|

| The programs like computermanagement work fine via run, how can I restore
| the links into the control panel folder?

|

| Thank you!

.
