trying to reinstall Microsoft Word on Windows XP , Have install disc but
do
not have certificate of as we experienced flooding and lost a bunch of
paperwork in ensuing cleanup. What can I do short of buying new program.

Did you uninstall Word before you realised you didn't have the key? Duh!
If Word is still installed, then try Belarc Advisor
http://www.belarc.com/free_download.html
That will tell you the Word key....
