```
Thank for trying to help Brian, I have followed the link given and tried to
do as told down to making a backup folder of the note and named it temp, the
information i see is ..[boot loader]
timeout=30
default=multi(0)disk(0)rdisk(0)partition(1)\WINDOWS
[operating systems]
multi(0)disk(0)rdisk(0)partition(1)\WINDOWS="Microsoft Windows XP Home
Edition" /noexecute=optin /fastdetect
```

this is not the same as shown on the information link but I have xp home and
not professional .

is there something I should change in that text ?? sorry to ask you so much
but as a complete amatuer I just follow instructions. many thanks Gerald

Check the BIOS for the drive detection boot order and change it to the proper
boot
order if necessary.

And/or

Your boot.ini may have the wrong parameters set.

How to edit the Boot.ini file in Windows XP
