Ricky,

This was most helpful. I'll try this at work in the next hour. I should have stated earlier that I'm trying to "repair" windows, and keep getting an "Administrator password".

Thanks for trying to help,

Tom

Have a look here for a repair install..

Thanks for the quick reply. I tried that and it brought me to a dos prompt.

Try leaving it blank and hit enter.

I am trying to reinstall windows xp, and come to a dos screen asking for the administrator password. I don't have a password. Any help would be great.

Thanks,
Tom
