Ok, i used HijackThis and ran a Startup Log, this is what it found...

StartupList report, 29/11/2008, 18:15:20
StartupList version: 1.52.2
Started from : F:\Program Files\Trend Micro\HijackThis\HijackThis.EXE
Detected: Windows XP SP3 (WinNT 5.01.2600)
Detected: Internet Explorer v6.00 SP3 (6.00.2900.5512)
* Using default options
* Including empty and uninteresting sections
* Showing rarely important sections

=====

Running processes:
