hey I am having the same problem and has been on going for quite a few weeks. I am seriously thinking about getting rid of it and not using this service anymore. Does anyone have a solution to this problem?

>-----Original Message-----

>Hi

>

>Over the passed few days I have been unable to sign into MSN Messenger. The

>picture (in the taskbar area) turns around and around trying to sign me in,

>and then delivers the error message "We could not sign you into MSN

>Messenger because there is a problem with your .NET Passport. Click OK to

>learn more at the .NET Passport web site. 0x81000303"

When I click on OK,

>it takes me to a page saying that MSN Messenger has signed me in too many

>times with an incorrect password, and then offers to give me the choice to

>change the password. Yet, all my setting are the same.

Nothing has changed

>in terms of me having changed my password or having tried to log in more

>than once at a time with an incorrect password.

>

>Does anyone know of this problem, and how it can be corrected, as I would so

>much like to be able to get my Messenger working again!

>

>Thanks.
