Have you removed any spyware recently? This can be a result of that. Also why aren't any service packs applied – new installation? The service packs are critical.

For the login problem:

Unable to Log On To Windows XP After Removing wsauptdater.exe

<http://www.lavasofthelp.com/articles/v6/04/06/0901.html>

If that doesn't help see this:

A User Logon Request Is Rejected Without Any Messages

<http://support.microsoft.com/?id=313322>
