Hey all, try and give this a shot, this command will totally work:

NETSH INTERFACE IP DELETE ARPCACHE

Here is the syntax:

Microsoft Windows XP [Version 5.1.2600]  
(C) Copyright 1985-2001 Microsoft Corp.

```
C:\WINDOWS\SYSTEM32>arp -a
```

```
Interface: 10.8.2.218 --- 0x10005
 Internet Address Physical Address Type
 10.8.2.217 xx-xx-xx-xx-xx-xx dynamic
 10.8.3.222 xx-xx-xx-xx-xx-xx dynamic
```

```
C:\WINDOWS\SYSTEM32>NETSH INTERFACE IP DELETE ARPCACHE
```

```
Ok.
```

```
C:\WINDOWS\SYSTEM32>arp -a
```

```
No ARP Entries Found
```

```
C:\WINDOWS\SYSTEM32>
```
