Charles,

Is this NAV a standalone product, or part of Norton Internet Security (which contains NPF)? Which firewall are you turning off and on again?  
<<http://nitecruZR.blogspot.com/2005/05/your-personal-firewall-can-either-help.html>>

Check Event Viewer when trying to Start the Server service manually.  
<<http://nitecruZR.blogspot.com/2005/05/using-event-viewer-to-get-details.html>>

Try resetting LSP / Winsock.
