Mike,

There's always something. ;-)

No matter who tells you about something, or how they told you, you just have to fiddle around with it yourself.

Open a message rule
Click on contains under Rule Description
(The last word in Where the To line contains)
Click the Options button

Wesley,

Many thanks, I wasn't getting the Options button (greyed out) until I put my address in!

D'oh!

Again, many thanks.
