i've encountered internet explorer ver 6 not able to print from any of the web site.I can print it to mozilla programme.Pls advice.Yours prompt reply is much appreciated.

What changed between the time things worked and the time they didn't? You haven't included enough information for anyone to give you focused help. Take the time to read the information at the link Gordon gave you if you want people in this newsgroup to help you.

Then post in the newsgroup for Internet Explorer, which is microsoft.public.internetexplorer.general. In the meantime, here are a few notes about fixing IE printing errors. Whether and/or which of these notes might help you I can't say because of the lack of detail from you.

A. IE print script error – Start>Run>regsvr32 iepeers.dll [enter]  
Also – Start>Run>regsvr32 ole32.dll [enter]

B. User Key: [HKEY\_CURRENT\_USER\Software\Microsoft\Internet Explorer\Main]  
Value Name: Use StyleSheets  
Data Type: REG\_SZ (String Value)

Find the value named "Use StyleSheets" and either delete it, or set it to equal "Yes".
